

## **Radiographic anatomy of normal variants - *ANSWER SHEET***

Dr Gilbert Gravino (Radiology Registrar, NWSOR)

1. Aortic origin of splenic artery
2. Aortic origin of common hepatic artery
3. Persistent metopic suture
4. Right calcaneo-navicular coalition
5. Lunate-triquetral coalition
6. Os vesalianum
7. Crossed fused renal ectopia
8. Retro-aortic left renal vein
9. Right cervical rib
10. Horseshoe kidney
11. Bicornuate uterus
12. Right duplex ureter
13. Bilateral duplex kidneys
14. Os tibiale externum
15. Os acromiale
16. Aberrant right subclavian artery (Arteria Lusoria)
17. Aberrant right subclavian artery (Arteria Lusoria)
18. Right pelvic kidney
19. Left cervical rib
20. Cavum septum pellucidum
21. Cavum vergae (and Cavum septum pellucidum)
22. Cavum velum interpositi

23. Horseshoe kidney
24. Azygos fissure/Azygos lobe
25. Azygos fissure/Azygos lobe
26. Aberrant left pulmonary artery
27. Aberrant left pulmonary artery
28. Fusion of triquetrium and lunate (coalition)
29. Left sided inferior vena cava
30. Annular pancreas
31. Os trigonum
32. Bipartite patella
33. Right medial bipartite hallux sesamoid bone
34. Unossified junction between right ischium and pubis
35. Left concha bullosa
36. Fetal origin of the posterior cerebral artery
37. Left sided vena cava (hemiazygos continuation of the IVC)
38. Right hepatic artery arising from the superior mesenteric artery
39. Pancreas divisum
40. Pancreas divisum
41. Inferior accessory fissure of the right lung
42. Superior accessory fissure of the right lung
43. Absent posterior communicating arteries bilaterally
44. Dextrocardia
45. Pectus excavatum
46. Riedel's lobe
47. Right double ureter
48. Absent inferior vena cava

49. Accessory sinus in the clivus
50. Trifurcation of the anterior cerebral artery
51. Tracheal bronchus (a.k.a pig bronchus or bronchus suis)
52. Bovine arch
53. Right sided aortic arch
54. Right sided aortic arch with aberrant left subclavian artery
55. Double foramen transversarium bilaterally
56. Situs inversus
57. Right sided aortic arch with aberrant left subclavian artery and associated Kommerell diverticulum
58. Double aortic arch
59. Double inferior vena cava
60. Aortic ductus diverticulum
61. Malrotated right kidney
62. Situs inversus
63. Intestinal malrotation (partial midgut rotation)
64. Mega cisterna magna
65. Left sided superior vena cava
66. Prominent left rhomboid fossa of the clavicle
67. Forked medial end of left clavicle
68. Companion shadow of left clavicle (projectional artefact)
69. Sacralisation (L5 transitional vertebra)
70. Bipartite patella
71. Discoid lateral meniscus
72. Lumbarisation (S1 transitional vertebra)
73. Aberrant left coronary artery
74. Aberrant left circumflex artery

- 75. Bicornuate uterus
- 76. Bilateral parietal foramina
- 77. Double superior vena cava
- 78. Wormian skull bones
- 79. Bilateral ureterocoele
